

## Look to Forkliftaction for insights, opportunities and reliable resources

A unique B2B platform, Forkliftaction has been connecting business people who buy, sell and work with materials handling equipment since its launch in 2000. Each month approx. 600,000+ visitors look to Forkliftaction for information and resources that they can rely on.

They source or sell equipment on the [marketplace of used equipment](#). They stay informed with quality, [independent news](#) that they can trust, or learn from expert [industry bloggers](#) about workplace safety, fleet management, new industry trends and applications. They consult and troubleshoot on a range of topics in [the forums](#): from warehouse and storage, container transport to safety legislation, training and more. They draw upon other valuable resources such as an extensive business directory, spec checker, jobs market, events calendar, photo galleries, safety columns, and more.

Every week, Forkliftaction's respected local news service reports on a wide range of independent news stories from across the Australasian industry.

Don't miss the special report '**Australian Market in focus**', where Australian industry leaders provide insight into emerging trends, current challenges and what the future may hold for the local sector: [Read the full report here](#)
