

Newcastle Stevedores commenced operations on 3rd March 1997 with the discharge of Petroleum Coke on behalf of Kooragang Bulk Facilities. From these humble beginnings Newcastle Stevedores has become one of the leading providers of containerised, bulk and general cargo stevedoring services in the Port of Newcastle.

Newcastle Stevedores primarily handles general and steel cargo at Eastern Basin No.1 or No.2 berths which have shed facilities for under cover storage. Western Basin No.4 berth featuring rail access direct under ships hook. Mayfield No.4 berth, servicing container trades project cargo. Bulk cargoes are primarily handled at either K2 or K3 berths, both of which Newcastle Stevedores operate at.).
