

Gary Campbell

Director, Sustainability and External Relations,
North Queensland Bulk Ports

Director, ICHCA Australia

Gary heads North Queensland Bulk Port's sustainability, environmental, planning and strategic interactions with all levels of government. This involves leading NQBP's input into a complex range of policy and planning changes currently underway within the Queensland port system.

He has been integral in developing NQBP strategy in relation to the challenges associated with "social licence to operate" for ports within the Great Barrier Reef World Heritage Area.

Gary has previously been involved in leading concept and early design planning for major port projects and has headed innovative collaborations with industry to deliver innovative environmental assessment and planning initiatives at NQBP ports.

Gary has been involved in senior positions in transport infrastructure organisations for over 25 years and prior to that he was a journalist and newspaper editor in regional Queensland and Britain.
